Hamza Zahoor

Software Engineer

Johar Town Lahore, Pakistan | hamzazahoor1067@gmail.com | +92 310 4666305

LinkedIn | GitHub

Education:

BS Software Engineering   **Dec 2026 - Present**
Punjab University College of Information and Technology
CGPA: **3.79**

Experience:

Web Developer Intern   Remote
Nexium   Jul 2025 - Aug 2025

- Built full-stack applications with Next.js 15, Supabase (Postgres), MongoDB, Prisma, and Vercel CI/CD.
- Gained hands-on experience with AI workflows (n8n), modern UI frameworks (ShadCN), and deployment pipelines.

Full Stack Web Developer   Lahore, Pakistan
Markonify   Aug 2025 - Present

- Built a responsive, multi-location service mapping platform using Next.js 15, TypeScript, and Google Maps API, featuring dynamic content rendering and smooth animations with Framer Motion, optimized for performance across all devices.

Skills & Interests:

Skills: C/C++, C#, Java, HTML, CSS, JavaScript, SQL, MERN (MongoDB, Express.js, React.js, Node.js), Next.js, ShadCN UI, Tailwind, MS Office Suite (Word, Excel, PowerPoint), VS Code, Microsoft Visual Studio, Oracle, MySQL, MongoDB, Postgre SQL (via Supabase)

Projects:

Lawn Care Services Platform | Live Preview | GitHub   Aug 2025 - Present

Built a responsive, multi-location service mapping platform using Next.js 15, TypeScript, and Google Maps API, featuring dynamic content rendering and smooth animations with Framer Motion, optimized for performance across all devices.

Job Application Portal – ASP.NET MVC | GitHub   Jun 2025

ASP.NET MVC portal with policy and claim-based authorization (Admin/Hr/Applicant). EF Core, SQL Server, CRUD operations, Bootstrap, Identity.

AI Pitch Writer | Live Demo | GitHub   Jul 2025

Developed an AI-powered pitch writing web app with magic link authentication (Supabase), AI logic via n8n, MongoDB storage, and CI/CD deployment on Vercel.

Hotel Management System – ASP.NET MVC | GitHub   Aug 2025

Developed a full-stack system with real-time booking updates (SignalR). Implemented CRUD for rooms, role-based access (Admin/Guest), and conflict-free reservations.

Blog Summarizer | Live Demo | GitHub   Jul 2025

Next.js app with AI-powered summarization and Urdu translation. Summary stored in Supabase and Full scraped text stored in MongoDB, ShadCN UI and Tailwind used for front-end. Deployed on vercel.

Hotel Management System – Java | GitHub   Dec 2024

Built using JAVA, HTML, CSS, JavaScript, and MySQLfocusing on CRUD operations, JDBC and session management.
